Proposed Rule : N/A

Date Rule Proposed: May 19, 2008

Explanation of the Purpose of the Proposed Rule and the reason(s) for proposing the rule: {Insert here The 2010 Mississippi Science Framework was developed based on the National Science Education Standards, the Benchmarks for Science Literacy, the National Assessment of Educational Progress Science Framework, ACT Objectives, and the existing 2001 Mississippi Science Framework. The revised framework consists of an introductory section with explanations of the intent of the document, strands, competencies, and objectives. The content of the framework is centered on the strands of Inquiry, Physical Science, Life Science, and Earth and Space Science. The objectives serve as a guide, indicating how competencies can be fulfilled through a progression of content and concepts at each level. Consistent with recent revisions in other frameworks, the science framework has been revised with a focus on more depth and less breadth and with attention to the vertical alignment as knowledge and skills are built across the grade levels. The revised framework has been reviewed by Dr. Norman Webb for Depth of Knowledge (DOK). The DOK level is indicated at the end of each objective.}
